About NorthStar

WHO WE ARE

Transforming Fire Alarm Solutions with Unmatched Expertise

At NorthStar Systems, we bring over 25 years of industry experience to the table, offering a unique blend of precision and attention to detail. Founded by Toby Woods, a veteran in the fire alarm industry, we are committed to delivering excellence in every project.

25+ Years of Expertise

Toby Woods brings precision and attention to detail from his submarine service to NorthStar Systems.

Trusted and Reliable

NorthStar Systems delivers tailored, code-compliant solutions for fire alarm and low-voltage projects.

OUR STORY

Fire Alarm Solutions with Over 25 Years of Experience

NorthStar Systems was founded by Toby Woods, a seasoned expert with over 25 years of experience in the fire alarm industry. Toby's career began in the submarine service, where he learned the critical importance of attention to detail and precision. These values have carried over into every aspect of his work in the fire alarm industry. Having worked across various roles, including installation, system planning, and project management, Toby has developed a deep understanding of the industry's complexities and the importance of creating safe environments.

OUR VISION

At NorthStar Systems, we aim to be a trusted partner for fire alarm & low voltage contractors. Our goal is to provide expert guidance and support, helping our clients navigate technical challenges with confidence. We strive to deliver precision-crafted permit drawings and comprehensive submittal packages that ensure successful project approvals. Our vision is to set new standards in safety and reliability, making every building a safer place for its occupants.

OUR VALUES

- Attention to Detail: We pride ourselves on meticulous planning and execution, ensuring every project is code-compliant and optimized for performance.
- Reliability: Our clients depend on us for timely delivery and solutions that exceed expectations.
- Innovation: We continuously adapt to industry trends, providing cutting-edge solutions tailored to meet the unique needs of our clients.
- Collaboration: We prioritize building strong relationships with our clients, listening to their needs and delivering tailored solutions.

MEET TOBY WOODS

Leadership You Can Trust

Toby's extensive technical expertise and dedication to excellence make him an invaluable leader at NorthStar Systems. His insider knowledge of installation practices and ability to navigate complex building codes position him as a trusted resource for clients seeking to enhance safety and compliance in their projects. Toby is passionate about helping companies succeed, and his commitment to quality drives NorthStar's mission to be a leader in the fire alarm industry.

Fire Alarm Permit Drawings & Submittal Packages

OUR COMMITMENT TO EXCELLENCE

Fire Alarm Permit Drawings & Submittal Packages

Navigating the approval process is seamless with our expertly crafted permit drawings and submittal packages. We handle all documentation with precision, ensuring that your project receives the necessary approvals from Authorities Having Jurisdiction (AHJs).

- Permit Drawings, Data & Listing Sheets

We prepare thorough documentation that addresses all regulatory requirements, facilitating smooth interactions with AHJs.

- Efficient Approvals

Our attention to detail ensures that your submittal packages are complete and accurate, reducing the likelihood of delays in the approval process.

FEATURED PROJECTS

3-Story Medical Office Building (New Construction) - Fire Alarm, Surveillance System, Burglary Alarm, Guard Paging, and Clinic Room Status Systems

Location: Sante Fe Springs, CA

Fire Alarm System: 214 initiating devices, 186 notification devices, elevator recall, elevator shunt trip, elevator fire curtain activation, Won door activation, fire door activation, fire sprinkler monitoring, smoke/fire damper shutdown, fan unit shutdown.

Surveillance System: 40 cameras, including license plate recognition.

Burglary Alarm: Three separate burglary alarm systems.

Guard Paging: RF guard paging integrated with alarm system activations.

Clinic Status System: Six clinic room status systems with 87 exam rooms.

Paper Mill (Existing Facility) - Fire Alarm System Upgrade and Modernization

Location: Vernon, CA

Challenge: The facility featured 28 fire sprinkler risers, and the existing system was prone to false alarms with no capability to pinpoint the alarm source due to outdated technology.

Solution: We designed and implemented an addressable system capable of annunciating each alarm location. Our team provided detailed drafts and coordinated with multiple stakeholders to ensure seamless integration.

Outcome: The project was completed on time and within budget, resulting in a reliable and efficient system for the client.

R3.1 Hospice Home in a Residential Setting (Existing Facility) - Fire Alarm System Upgrade, Video Access Control, Nurse Call System, Surveillance System, and Burglary Alarm System

Location: Whittier, CA

Challenge: The project involved navigating complex regulatory requirements to secure timely fire alarm approvals for the demolition and remodel of a hospice facility in a residential setting.

Solution: We prepared comprehensive permit drawings and submittal packages that addressed all regulatory concerns and maintained close communication with the AHJ.

Outcome: The project received prompt approvals from Authorities Having Jurisdiction (AHJs), facilitating a smooth and efficient construction process.

Our Approach

Attention to Detail: Every project is approached with meticulous attention to detail, ensuring that our solutions are not only compliant but also optimized for performance.

Collaboration: We work closely with our clients and partners to understand their unique needs and deliver solutions that align with their vision and goals.

Innovation: Our commitment to innovation ensures that we provide cutting-edge solutions that enhance safety and efficiency in every project.

Join Our Success Stories

Partner with NorthStar Systems and experience the difference that expertise, precision, and dedication can make in your projects. Contact us today to learn more about our past successes and how we can support your fire alarm and low-voltage needs.
